IF YOU ARE INVOLVED IN AN ACCIDENT ALWAYS

- Call the police and ask that they make out an accident report.
- Write down all necessary information (see back of this card)
- Seek medical treatment immediately
 - Many serious injuries show no immediate symptoms
 - Do not just wait for the pain to get better
- Document all property damage (estimates, photos)
- Document lost wages (save all pay records)
- Document all pain and suffering (start and keep a diary)

NEVER

- Never let anyone talk you into leaving the scene of an accident without the information on the reverse side of this card.
- Never let anyone take a written or tape recorded statement without consulting your attorney first. Remember, "anything you say can and will be used against you in a court of law."
- Never delay in getting legal assistance. The insurance company is gathering all the facts it can to refuse your claim.
